

SAN PITCH RIVER DISTRIBUTION SYSTEM

** 1976 WATER ASSESSMENT **

\$ 3,955.00

FORWARD:

The 1976 Annual Water Users Meeting minutes state that \$ 3,955.00 is to be assessed to all water users for the year 1976, based on the Commissioners report of water used during 1975.

BASIS OF ASSESSMENT:

The total amount of water delivered in 1975 as reported by the Commissioner is in the amount of 33,751.30 acre-feet. Therefore, the total amount of the Assessment of \$ 3,955.00 divided by the 33,751.30 ac/ft equals \$ 0.117181, cost of one pro-rata foot of water which multiplied times the amount of water as reported by the Commissioner as used during 1975 equals his or her 1976 Water Assessment.

PROOF:

\$ 0.117181 times 33,751.30 ac/ft equals \$ 3,955.00

Dear Mr. Jensen:

Re: 1976 Assessment Roll
Commissioner's Report of
Water Diverted in 1975

Enclosed is a report form which consists of the current name and account number of your water users, as of this date, as shown on the records of this office.

For 1976 Assessment Purposes, please fill in the number of acre-feet of water diverted during 1975 to each individual and return the report to me. It will be these figures on which the 1976 Annual Water Assessments will be partially based upon.

If you have any changes in names or addresses, feel free to plainly make them. Thank you very much for your attention to this matter.

Very truly yours,

Richard R. Pexton
Distribution Accountant
